

504 PLAN ELIGIBILITY CHECKLIST

Name:

Date:

- If the individual has any physical or mental impairment that might affect them neurologically, their respiratory functions, digestive or cardiovascular system, or skin.
- If they suffer from any psychological disorder like retardation, emotional or mental illness, or even specific learning disabilities.
- If the impairment creates substantial gaps in the daily functioning of an individual, disabling them to carry out activities like self-care, performing manual tasks, or something as basic as walking, hearing, speaking, or learning.
- If the individual presents the symptoms of a disability that will evolve and grow eventually, causing disruptions in the life of the individual.
- If the individual is under the remedial phase of a disability and requires aid to functioning.
- If the individual suffers from a disorder/disability that reflects episodically but hampers their functioning in any aspect.
- If the individual finds themselves performing fairly on their tasks but feels the need for continuous and seemingly non-resolvable help in related areas.
- If the individual has environmental, cultural, or economic difficulties along with characteristics of a mental or physical disability.
