Reading Comprehension Lesson Plan

Grade Level: 9 - 10

Objective:	• To read the given passage with appropriate pronunciation. To identify and remember new vocabulary. • To comprehend the ideas and meaning of the text. • To answer questions related to the given passage.
Materials Needed:	• Printed copies of a passage and related comprehension questions (one for every student) • Highlighters or colored markers • Whiteboard or projector • Pens
Procedure:	**Warm-up (5 minutes):** • Begin the lesson by asking students what they know about reading comprehension. • Note their responses on the whiteboard. • Explain the actual meaning of reading comprehension and why it is important. **Pre-Reading (10 minutes):** • Distribute copies of the passage to students. • Ask them to go through the title, author, and any headings or subheadings. • If possible, show them 2-3 pictures related to the passage on the projector. • Next, ask them to predict what the passage is all about based on the limited information they have. **Reading (20-25 minutes):** • Instruct students to read the text individually. • Ask them to use highlighters/ markers to highlight or underline any important information or difficult vocabulary. • Encourage them to ask questions if they have any to promote active engagement. **Post-Reading (15-20 minutes):** • Ask students to refer to the comprehension questions shared with them. • Let them work individually or in pairs to answer the questions. • Allow them to refer to the passage as needed.

	Final Discussion (10-15 minutes): • Ask a few students to share their answers. • Review the responses and discuss the right answers. Encourage students to share their thoughts on the passage and discuss contradictory opinions, if any. **Conclusion (10 minutes):** • Have students reflect on their understanding of the given passage. • Give them a task to write a short summary on the main idea of the passage.
Assessment:	• Assess students based on their participation during class discussion and their answers to comprehension questions. • Also, evaluate their understanding of the text by reviewing their summaries of the given passage.
Extension Activities:	• Motivate students to research further on the topic or the author to expand their knowledge on the subject. • Tell them to use the internet, books, or other resources for the • same.
